

# PANEL W

build. simple.

## PRODUCTS

## DOMES

**W DOMES** are preassembled and ready to place and apply the covering, the surface can have any kind of finish from paint to ceramics or stony, the installation is fast because the low weight permits the domes to be easily moved. Once the cover is applied the domes have the strength and durability of reinforced concrete. There is an assorted selection of dome sizes and different type of windows.

All domes include in the top side a lantern shaped cylindrical drum provided with 4 round arch windows.

**LINTERNILLA= LANTERN**

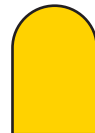

**CASQUETE= DOME**

**TAMBOR= DRUM**

**MOLDURA= MOULDING**
